

School Safety.

Wake County School Board Policy promises students, families, and all staff a safe and orderly working environment. Wake County schools needs to continue its School Safety policy because we cannot allow our children to feel unsafe in school. We must do better at enforcing a zero tolerance for discrimination, harassment and bullying (including cyber-bullying) – for any reason including religious and political discrimination.

Wake County Public School's [SRO program](#) reflects our community's desire to protect our schools, keeping them safe, secure and orderly.

Our children's [safety](#) starts at the local level, and our children need and deserve our protection.

School Transparency.

There needs to be [curriculum transparency](#) in Wake County Public Schools. School systems across the country are adopting politically biased curriculum at an alarming rate

Wake County Public School teachers need to post publicly (official school website in same digital location at each school so parents don't have to hunt for curriculum), in a way that does NOT require a password, any and all "curriculum" that will be presented to students, at least 2 weeks in advance. Parents need to be able to inspect curriculum before it is assigned.

It is our duty as parents and obligation as educators to ensure our children are taught with principles that give us our freedom.

School Performance.

Wake County is the 15th largest school district in the country, and we need to be the leader of EDUCATION INNOVATION, not a distant follower.

[Education Week](#) ranked NC 37 out of 50. 63% of our students are below proficient in Math and 67% below proficient in reading. Nearly half of the schools in [District 2](#) have a D or an F. Our kids and our communities deserve better.

I also believe that knowing our history helps our children become good citizens. It's important to keep American history in our schools. Our children need to feel proud to live in this great country. We cannot change what happened yesterday, but what we do today can achieve a better tomorrow.
